

## ENVIRONMENTAL POLICY

Total Glass Limited is committed, as one of the leading companies in England in the manufacture of PVCu Windows and Doors, Aluminium windows and doors and composite doors, in minimising the impact of its activities on the environment. The company is a medium sized employer based in Knowsley, Merseyside and is committed to the care of the environment, by the continual improvement of its performance, pollution prevention and compliance with, or wherever possible exceeding, legal and other environmental requirements.

The Environmental Policy of Total Glass Limited is:

- That the EMS is documented and maintained to enable effective environmental control in accordance with ISO14001:2004.
- The EMS will meet or exceed all the environment legislation that relates to Total Glass Limited
- Minimise toxic emissions through the selection and use of our transport fleet and with the use of our power requirements
- Continually improve the company's environmental performance by achieving and regularly reviewing its environmental objectives.
- Continually review manufacturing processes to minimise adverse effects on the local environment.
- Develop all areas of the business, including suppliers, in order to continually improve our environmental performance.
- Actively promote re-use and recycling of all generated wastes both internally and amongst our customers and suppliers
- Utilise raw materials and energy in a manner that minimises waste.
- Employ an environmental duty of care to our employees, customers, regulatory bodies, neighbours and other interested parties.
- Communicate this policy to all employees and those working for or on behalf of the company.

The Environmental Policy will be taken into account, where economically feasible and practicable, when making financial and operational decisions.

The implementation of the Environmental Policy has the full commitment of the company and the contribution of everyone is essential in achieving our goals.
